Knowledge is extolled by everyone, knowledge is considered great everywhere, one can attain everything with the help of knowledge and a knowledgeable person is respected everywhere.

'The function of education is to teach one to think critically. Intelligence plus character-that is the goal of true education'.

A child needs a model and not a critic. BGS National Public School identifies the talent in each child and inspires in honing the same. Keeping up the standards of academic excellence, the school remains rooted in the cultural aspects and moral ethics. The strong points never go unnoticed and ample opportunities are provided for the holistic development of a student.

Dear students! Motivation is what gets you started. Habit is what keeps you going. You are privileged as this school imparts education which is not a rote-based learning but each day unfurls new activities and challenges. You will be thrilled with the joyous journey of critical thinking skills, creative writing, confidence building and teamwork be it class work or home tasks. Sheer hard work is the only key to success. No rocket science is applicable. Avail all the opportunities that come your way to stand out as responsible citizens.

"Teaching is the one profession that creates other professions". Hence, in a heterogeneous crowd, one needs to take the extra mile to make the sessions interesting. It is the cardinal concern of the teacher to see that none is left behind and all come out with flying colours.

I wish you all the best and hope you make us feel proud!

**"When you educate one person, you can change a life
When you educate many, you can change the world."**

All of us have been created nobly. We all have been given talents and gifts that can be used to benefit the world of humanity. These qualities are latent in every child, but they need to be developed. Education, alone, can cause it to reveal its treasures, and enable mankind to benefit therefrom.

A child learns what he lives, and BGS National Public School strives for a more peaceful world, where spiritual principles guide the students' actions and decisions. Here, the children are brought up through prayer, love, hard work and sincere efforts. We believe these qualities are necessary for the education of our children.

Teachers play an important role as well, they impact what and how the students learn everyday with a holistic perspective. They are concerned with the development of every student's intellectual, emotional, social, physical, creative, spiritual and artistic potential. Our team of effective teachers show their willingness to contribute beyond the scope of the classroom and play an important role in character development and the shaping of the students' reputation, honour and integrity.

Think different and go after the excellence; do something that makes your name stand out in a crowd. Best of luck.

“Don’t limit your challenges: challenge your limits. Each day we must strive for constant and never- ending improvement”

Dear readers, BGS NPS has over the years overcome all challenges and established itself as an *abode of learning*. The Institution has been providing holistic education and nurturing talents of every student, both academic as well as co- curricular. Students are taught life skills and imbibe values so that they emerge as responsible citizens of our country. In this journey they are led forward by an extremely dedicated team of teachers who are forever ready to walk the extra mile.

It is a blending of art, science, literature and other subject areas and beautifully showcases the talents of our children and highlights upon their achievements. *Prabodhan* will quarterly display all events and competitions and work done by students.

I, wholeheartedly appreciate the efforts of the editorial team for having conceived and worked consistently in giving life to *Prabodhan*. I also invoke the blessings of His Holiness Jagadguru Padmabhushana, Sri Sri Dr. Balagangadharanatha Mahaswamiji, Sri Sri Dr. Nirmalanandanatha Mahaswamiji and Sri Sri Dr. Prakashnath Swamiji in making *Prabodhan* a success,

"Education is what survives when what has been learned has been forgotten." – B. F. Skinner

As we embark on this enriching path of bringing forth our monthly publication 'Campus Roots', on behalf of all of us at BGS NPS, Bannerghatta, I am delighted to introduce you to what will clearly be an exciting, meaningful and blessed journey in the lives of our children.

We value and treasure the uniqueness each child brings to the classroom. The richness of our academic programs encourages students to connect separate elements of knowledge to form a coherent perspective of the whole, thus producing insightful, creative and analytical thinkers.

I am confident we will succeed in challenging our students to become engaged citizens of the 21st Century who possess not only the knowledge for critical thinking but also the motivation for keeping their minds actively engaged in learning for the rest of their lives.

We encourage you to partner with us and support our endeavours so as to have a fruitful and lasting impact on the lives of our younger generation. Together we can ensure they have a more informed understanding not only of themselves but also of the world in which they live.

Let us collaboratively ignite the dreams, hopes and aspirations of the chosen generation.

Wishing you a happy reading experience!

MUSIC COMPETITION : FINALE - SWARANJALI

There were participants from each grade, who were selected after several rounds of auditions. The participants were scored on choice of song, melody, pitch, rhythm, expression and overall impact. The audience was enthralled with each rendition. The judges of the competition were our own talented teachers from across the school. All our young maestros who took part in the competition, were well appreciated by the judges and each one's unique style made the competition a great success.
